

Hands-on Assignments:

Assignment#1. Create a VM and install docker and test the images inside the container with the commands

The screenshot displays the AWS Management Console for the Asia Pacific (Mumbai) region. The interface includes a left-hand navigation pane with options like EC2 Dashboard, EC2 Global View, Events, Tags, Limits, Instances, Images, and Elastic Block Store. The main content area is divided into several sections:

- Resources:** A summary of EC2 resources in the region. A table lists the following counts:

Resource	Count
Instances (running)	0
Dedicated Hosts	0
Elastic IPs	0
Instances	3
Key pairs	7
Load balancers	0
Placement groups	0
Security groups	5
Snapshots	0
Volumes	3
- Account attributes:** A section on the right showing account details like Supported platforms, Default VPC, and various settings.
- Launch instance:** A section with a 'Launch instance' button and a 'Migrate a server' button.
- Service health:** A section showing the status of AWS services, indicating that the service is operating normally.
- Explore AWS:** A section with links to various AWS services and features.

The bottom of the screen shows a Windows taskbar with the date and time (14:58, 23-12-2022) and system status (31°C, Haze).

Amazon Machine Image (AMI)

Amazon Linux 2 AMI (HVM) - Kernel 5.10, SSD Volume Type

Firewall (security groups) Info

A security group is a set of firewall rules that control the traffic for your instance. Add rules to allow specific traffic to reach your instance.

Create security group

Select existing security group

We'll create a new security group called 'launch-wizard-5' with the following rules:

☒ Allow SSH traffic from

Helps you connect to your instance

Anywhere
0.0.0.0/0

☐ Allow HTTPS traffic from the internet

To set up an endpoint, for example when creating a web server

☐ Allow HTTP traffic from the internet

To set up an endpoint, for example when creating a web server

Rules with source of 0.0.0.0/0 allow all IP addresses to access your instance. We recommend setting security group rules to allow access from known IP addresses only.

Configure storage Info

Advanced

1x 8 GiB gp2 Root volume (Not encrypted)

Free tier eligible customers can get up to 30 GB of EBS General Purpose (SSD) or Magnetic storage

About Official Images

Docker Official Images are a curated set of Docker open source and drop-in solution repositories.

Why Official Images?

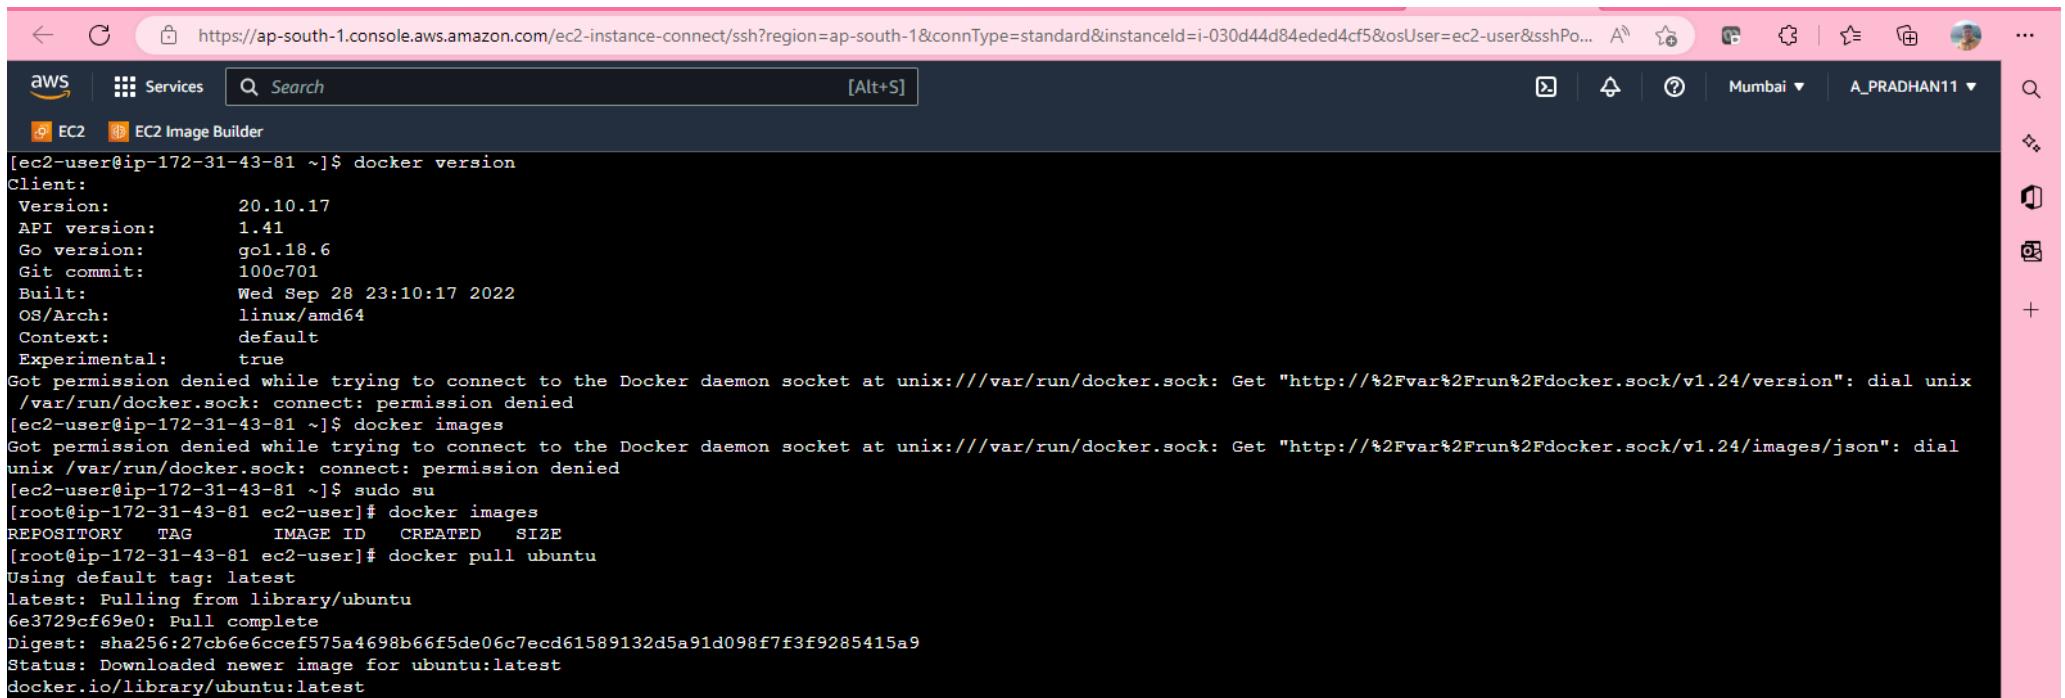

These images have clear documentation, promote best practices, and are designed for the most common use cases.

Nginx installed

← ↻ https://ap-south-1.console.aws.amazon.com/ec2-instance-connect/ssh?region=ap-south-1&connType=standard&instanceId=i-030d44d84eded4cf5&osUser=ec2-user&sshPo... A

aws Services Search [Alt+S]

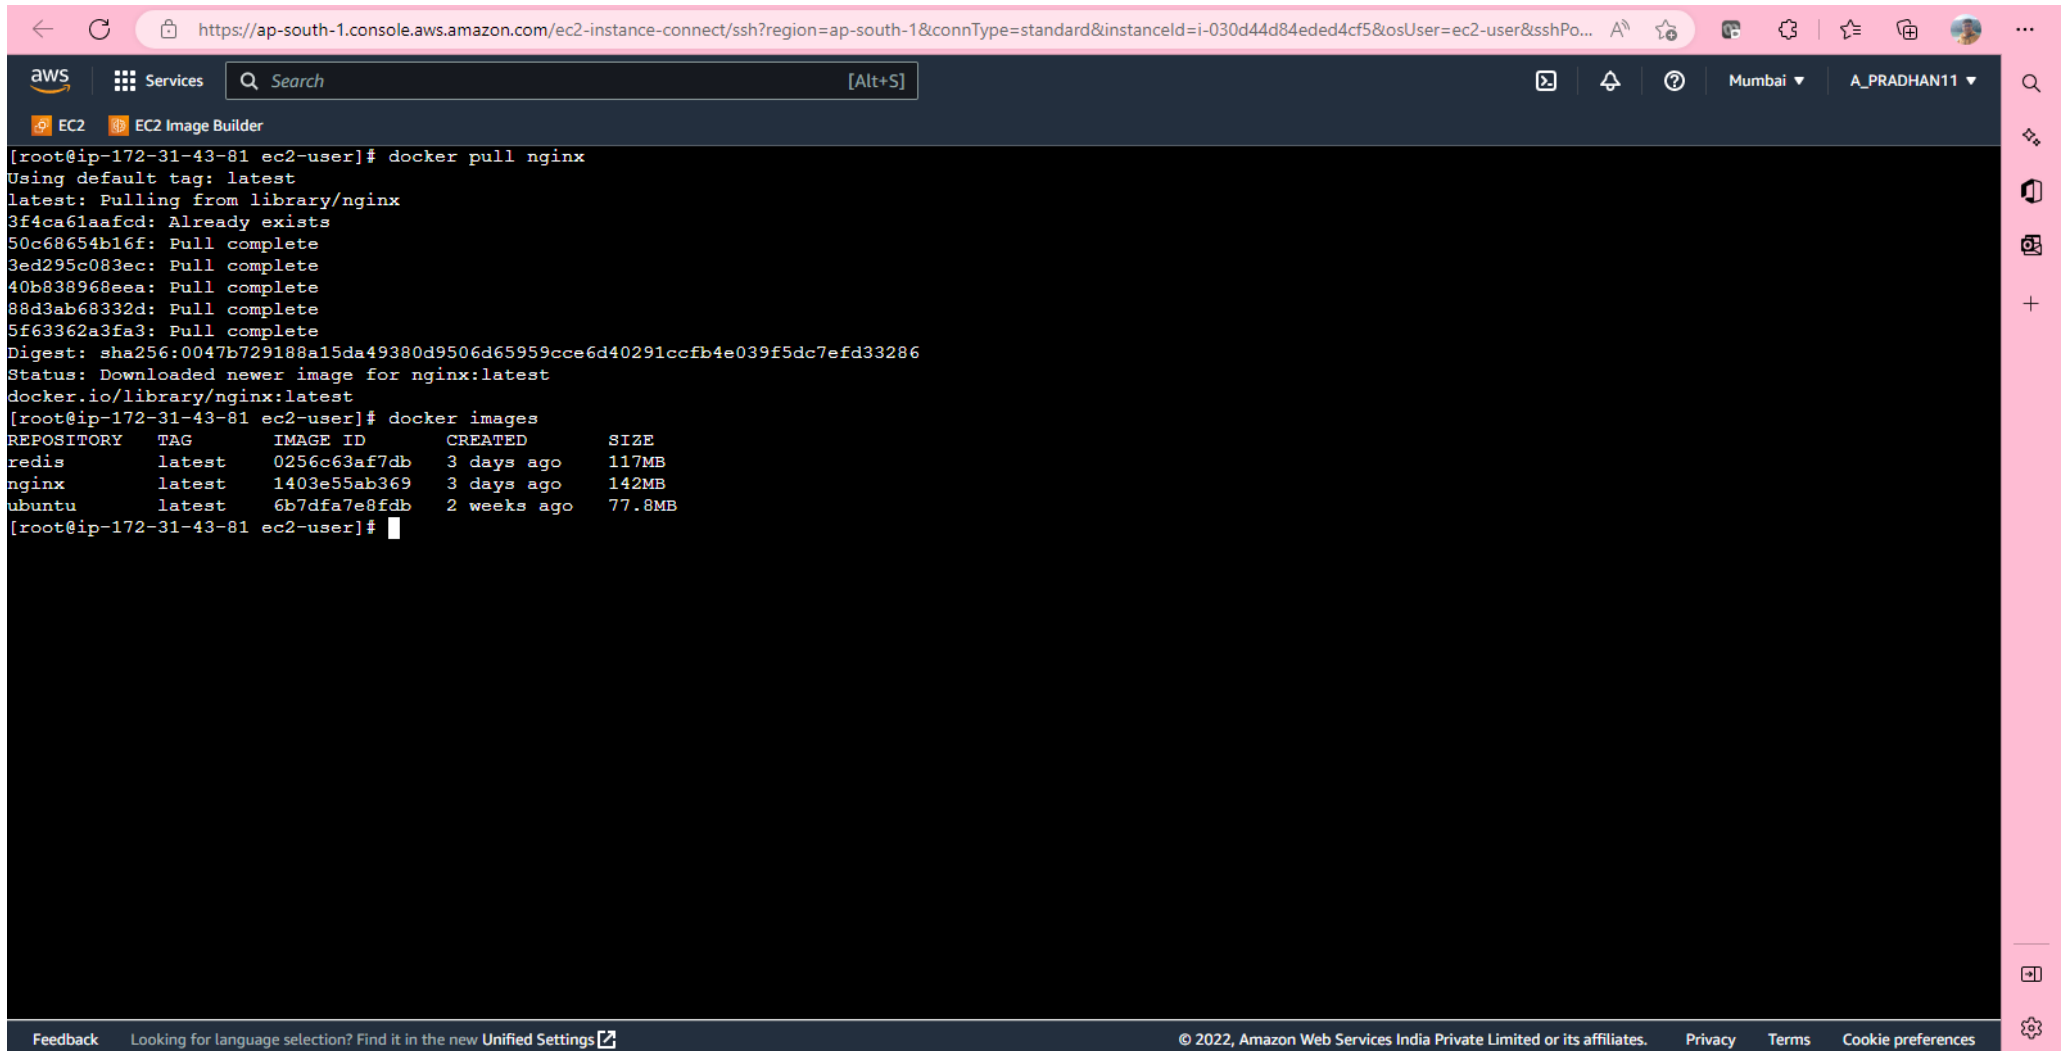

EC2 EC2 Image Builder

```
[root@ip-172-31-43-81 ec2-user]# docker pull nginx

Checking Images

The screenshot shows the AWS Management Console interface. At the top, the browser address bar displays the URL: `https://ap-south-1.console.aws.amazon.com/ec2-instance-connect/ssh?region=ap-south-1&connType=standard&instanceId=i-030d44d84eded4cf5&osUser=ec2-user&sshPo...`. The console header includes the AWS logo, a 'Services' menu, a search bar, and a '[Alt+S]' shortcut. The user's location is set to 'Mumbai' and the account name is 'A_PRADHAN11'. Below the header, the 'EC2' and 'EC2 Image Builder' services are visible. The main terminal window shows the following commands and output:

```
[root@ip-172-31-43-81 ec2-user]# docker pull nginx
Using default tag: latest
latest: Pulling from library/nginx
3f4ca61aafcd: Already exists
50c68654b16f: Pull complete
3ed295c083ec: Pull complete
40b838968eea: Pull complete
88d3ab68332d: Pull complete
5f63362a3fa3: Pull complete
Digest: sha256:0047b729188a15da49380d9506d65959cce6d40291ccfb4e039f5dc7efd33286
Status: Downloaded newer image for nginx:latest
docker.io/library/nginx:latest
[root@ip-172-31-43-81 ec2-user]# docker images
```

REPOSITORY	TAG	IMAGE ID	CREATED	SIZE
redis	latest	0256c63af7db	3 days ago	117MB
nginx	latest	1403e55ab369	3 days ago	142MB
ubuntu	latest	6b7dfa7e8fdb	2 weeks ago	77.8MB

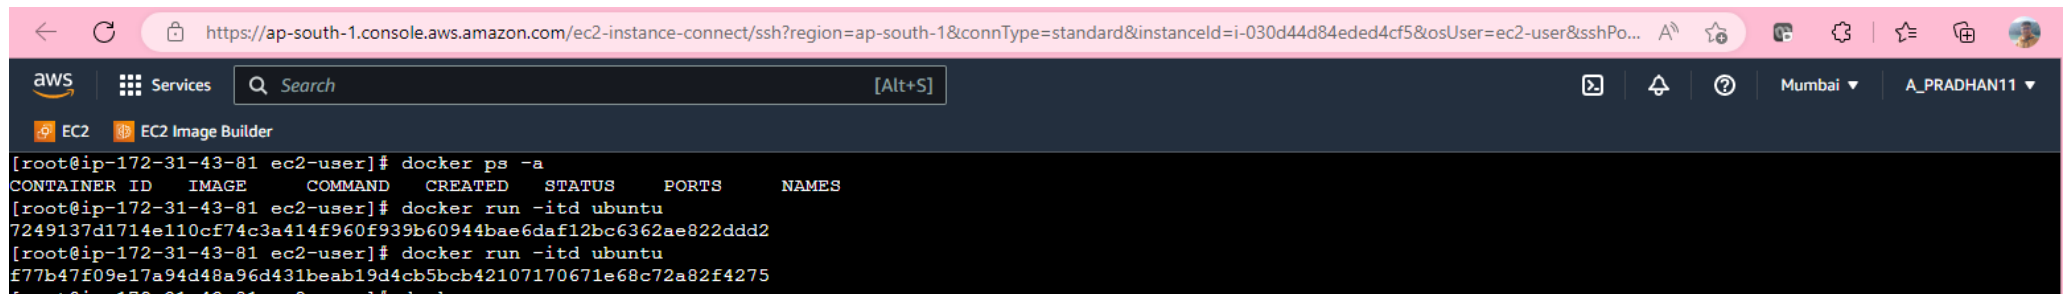

The terminal prompt is `[root@ip-172-31-43-81 ec2-user]#`. The footer of the console includes a 'Feedback' link, a language selection prompt, a link to 'Unified Settings', and copyright information: '© 2022, Amazon Web Services India Private Limited or its affiliates.' It also includes links for 'Privacy', 'Terms', and 'Cookie preferences'.

Thus, Ubuntu, redis and nginx all three images have installed inside container.

Now running ubuntu inside Container

Commands

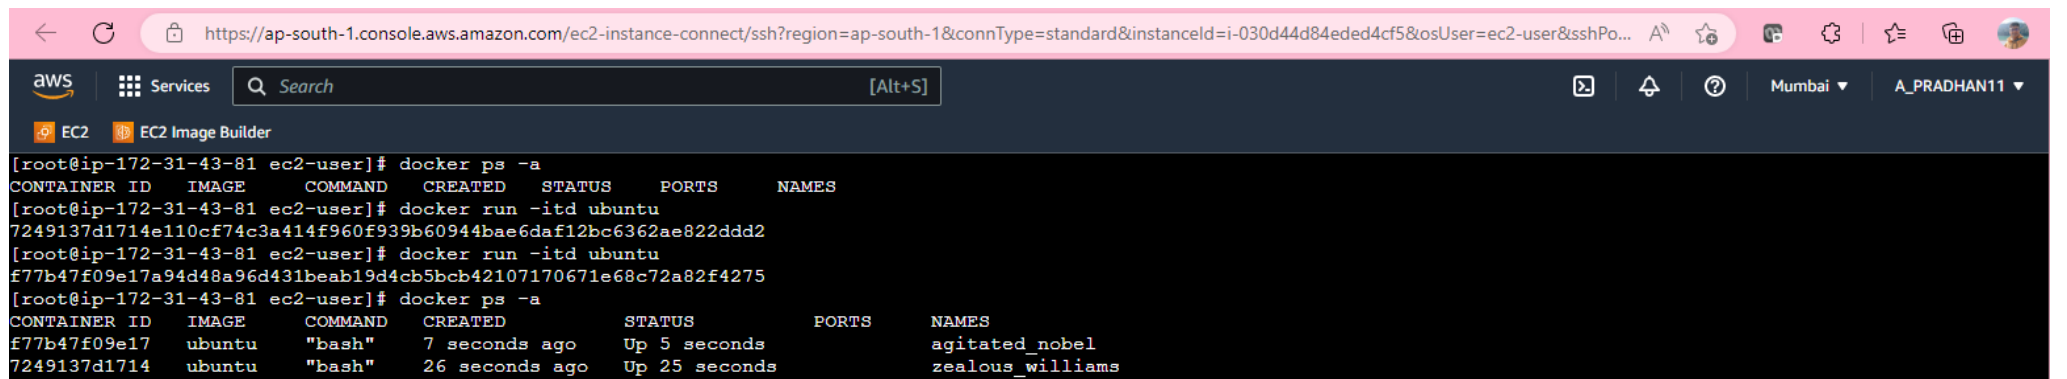

1) **docker run -itd ubuntu** (detached mode)

```
[root@ip-172-31-43-81 ec2-user]# docker ps -a
CONTAINER ID   IMAGE     COMMAND   CREATED   STATUS    PORTS   NAMES
[root@ip-172-31-43-81 ec2-user]# docker run -itd ubuntu
7249137d1714e110cf74c3a414f960f939b60944bae6daf12bc6362ae822ddd2
[root@ip-172-31-43-81 ec2-user]# docker run -itd ubuntu
f77b47f09e17a94d48a96d431beab19d4cb5bcb42107170671e68c72a82f4275
```

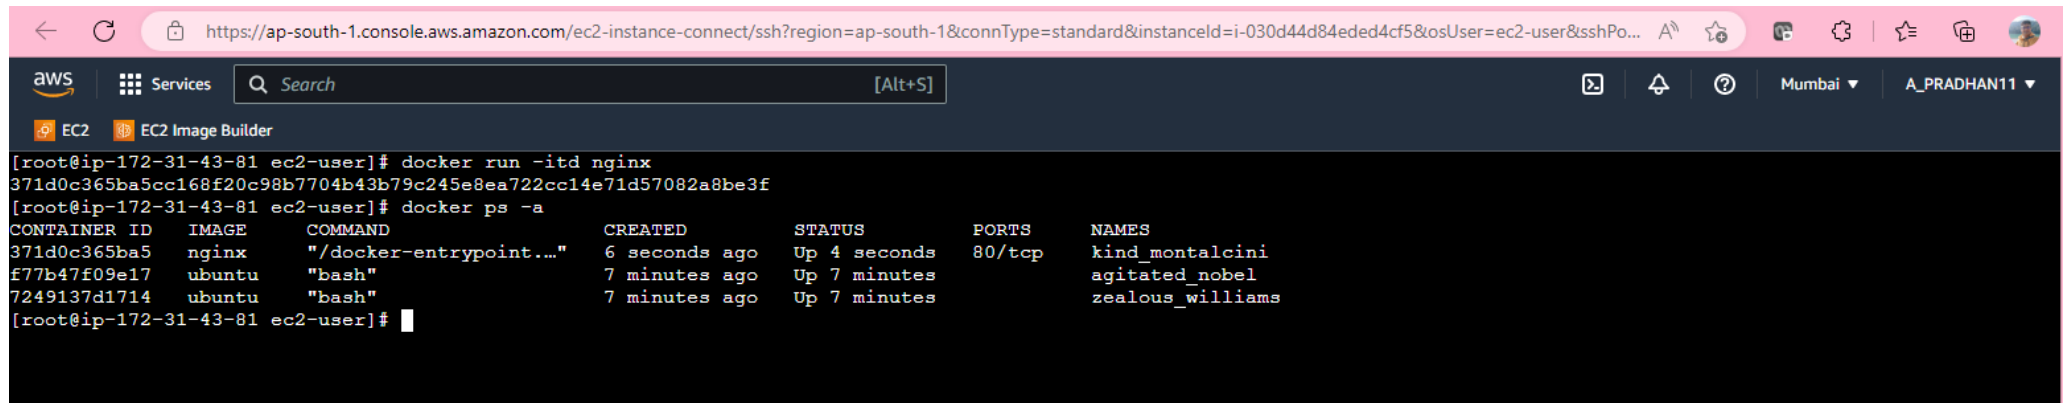

2) Now checking ubuntu status inside container

docker ps -a

```
[root@ip-172-31-43-81 ec2-user]# docker ps -a
CONTAINER ID   IMAGE     COMMAND   CREATED   STATUS    PORTS   NAMES
[root@ip-172-31-43-81 ec2-user]# docker run -itd ubuntu
7249137d1714e110cf74c3a414f960f939b60944bae6daf12bc6362ae822ddd2
[root@ip-172-31-43-81 ec2-user]# docker run -itd ubuntu
f77b47f09e17a94d48a96d431beab19d4cb5bcb42107170671e68c72a82f4275
[root@ip-172-31-43-81 ec2-user]# docker ps -a
CONTAINER ID   IMAGE     COMMAND   CREATED        STATUS       PORTS   NAMES
f77b47f09e17   ubuntu    "bash"    7 seconds ago  Up 5 seconds  ports   agitated_nobel
7249137d1714   ubuntu    "bash"    26 seconds ago Up 25 seconds  ports   zealous_williams
```

Now running Nginx

```
[root@ip-172-31-43-81 ec2-user]# docker run -itd nginx
371d0c365ba5cc168f20c98b7704b43b79c245e8ea722cc14e71d57082a8be3f
[root@ip-172-31-43-81 ec2-user]# docker ps -a
```

CONTAINER ID	IMAGE	COMMAND	CREATED	STATUS	PORTS	NAMES
371d0c365ba5	nginx	"/docker-entrypoint..."	6 seconds ago	Up 4 seconds	80/tcp	kind_montalcini
f77b47f09e17	ubuntu	"bash"	7 minutes ago	Up 7 minutes		agitated_nobel
7249137d1714	ubuntu	"bash"	7 minutes ago	Up 7 minutes		zealous_williams

```
[root@ip-172-31-43-81 ec2-user]#
```

Now all 3 images running inside the container.
